Thank you. Can you tell me if data from GKM11, GKM05, GKM01 are included in the data points being screened?

Thx.

Revised Ag exceedances and counts attached.

Let me know if you need anything else.

Just normal status quo here. In the meantime, can you add to the ag screening values,
molybdenum 300 ug/L (source is Colorado)
iron 20,000 ug/L (source EPA)
mercury 2 ug/L (source EPA)

Then can you re run the screen?

Thank you!

I'm in no rush ☺

I was up late last night and slept in a little so I was just worried that I missed something and everyone was waiting on me!

Jan is pulling together a table that lists all values, then we will be able to give you our numbers. Sorry for delay.

Thanks,

WO

Subject: Background

Hi Wendy,

I just wanted to check if you had any direction for me on what to do with backgrounds? I looked at the data from Jan and I am not sure where those locations are or which number I should use. What I could work with is at each location a list of values to use as the background for totals, dissolved, and sed.

Any direction would be great!!

Megan

Regards,

Megan J Adamczyk
